

WisePad™ 3 | WisePad™ 3S

PayConex and PayConex PLUS
Mobile App mPOS Terminal

The robust and capable flexible WisePad 3 is designed to meet the needs of Merchants seeking a secure mobile commerce device that supports mag-stripe and EMV transactions.

The small form factor makes it ideal for mobile payments for taking secure payments anywhere, anytime. Bluetooth connectivity easily pairs with a smartphone or tablet.

Robust security and encryption combine to protect cardholder data; account information is never stored in the device.

Support for newer versions of iOS and Android means that the WisePad 3 works with all popular mobile and tablet operating systems.

Features & Benefits

Expanded Payment Options

Card-present credit, debit, EMV chip & signature, NFC, Google Pay & Apple Pay

Multipurpose

Ideal mobile payment POS for any smartphone (iOS and Android) Wi-Fi enabled device, tablet.

Flexible Connectivity

Communicates via Bluetooth and USB

Superior Security

PCI P2PE PTS 5.x & 6.X with SRED;
EMV Chip Reader; EMV Contact L1 & L2.

WisePad™ 3 Integration Opportunities

The WisePad 3 integrates seamlessly with Bluefin's Payconex and Payconex+ payment gateways. Integration is simple using one of our pre-built solutions such as QuickSwipe (iOS) for Payconex and Payconex+ application (iOS & Android) for Payconex+. If you are looking for a more custom solution, Bluefin provides SDKs to build your own application for either gateway.

Sporting festivals, and fairground events, hair salons, moving companies, and general stores are just a few examples of this solution in use with Bluefin today.

Packed with the latest PCI PTS 5.x & 6.X, SRED, and NFC contactless certifications, the WisePad 3 delivers the highest payment security and protects transaction privacy. Equipped with a high definition 2.4" display, Bluetooth and USB communications, the WisePad 3 provides a seamless static and on the go processing experience to modern consumers.

2.4" touch screen | Bluetooth and USB communication
USB-C Charging | 750mAh battery | PCI PTS 5.x & 6.X certified
